**Please read and save these instructions. Read through this user's manual carefully before using product. Protect yourself and others by observing all safety information, warnings and cautions. Failure to comply with instructions could result in personal injury and/or damage to product or property. Please retain instructions for future reference.**

The drawings in this manual may not correspond to the physical objects. Please refer to the physical objects.

## 1. Security Instructions

**Warning!** Read the safety instructions carefully. Failure to follow the safety precautions could result in serious injury or damage. Keep the operating instructions in a safe place.

Take special care when using this article.

Please read the following safety and warning instructions carefully and completely before installing or using your new garden trolley. This is for your own safety! We accept no liability for damage and injury resulting from failure to respect the safety instructions!

**Risk of suffocation – Acute danger to life!** The product includes packaging materials and small parts that can be swallowed, such as screws and nuts. If children put these in their mouths, they can choke on the individual parts! Therefore, keep your children and pets away from all small parts and packaging material. Never let them play with them.

**Risk of injury – Do not let children play with the car!** The garden trolley is not a toy! Do not allow children to operate the garden trolley and make sure that children do not play with the trolley or its parts! The trolley could tip over and injure your children. Point out the dangers to your children! Keep the garden trolley out of reach of children.

**Risk of injury – You could injure yourself and others!** Make sure that the garden trolley is fully and securely assembled before using it. Do not try to play with the garden trolley and never roll down slopes. – Always drive the garden trolley slowly and carefully and never start running. You could lose control of the trolley and injure yourself.

**Risk of damage – Follow the instructions in this manual!** Before use, make sure that the tyre pressure is sufficiently high. The tire pressure should not exceed 2 bar (30 PSI). Observe the maximum load weight of 550 kg! Only transport your load well secured inside the garden trolley. Never attach your load to the drawbar. Garden trolley and load could otherwise be damaged. Weather conditions, such as rain, snow or strong wind can damage the product. Do not use any pointed, scratching or sharp objects to open the packaging. They could damage the product and parts. Have repairs carried out only by the manufacturer. Do not use abrasive, corrosive, solvent-based, alkaline or acidic cleaning agents for cleaning. Sharp-edged, pointed or scratching cleaning utensils should also not be used. Incorrect storage causes damage to the product and shortens its life. Store the product dry, well ventilated and away from heat sources.

**Intended use** Always follow the instructions in this manual exactly when installing and using the device. Pay particular attention to the safety and warning notes, as well as the instructions for use and commissioning. Any deviations are considered improper use and may result in personal injury and damage to property. We accept no liability for this. The garden trolley is used exclusively for transporting garden utensils, waste and other materials for garden, house and yard. Do not use it for other purposes. It has been developed for private use and is not suitable for commercial purposes. Faulty repairs impair the functionality and safety of the product.

## 2. Assembly

### 2.1 Content

Figure 1: Delivery volume

Delivery volume:

- 4x wheels
- 1x front axle with handle and drawbar
- 1x rear axle
- 1x grid floor
- 2x side rails
- 1x front grille
- 1x rear grille
- 1x screw set
- 1x fabric inlay
- 1x grid shelf

Tools required for assembly:

- 1x slotted screwdriver
- 2x ring/open-end wrench 13mm
- 2x ring/open-end wrench 17mm

## 2.2 Assembly

1. Place the rigid axle on the grid floor and fasten it with two washers and nuts (M10, spanner size 17mm).  
Mount the drawbar on the steering axle. The screws (M10x60) are passed through the steering axle from above, through the drawbar and fixed with washers and nuts (M10, spanner size 17mm).

Figure 2 shows the current status.

Figure 2: rigid axle on the left; steering axle on the right

2. Place the wheels (the valve point outwards) on the axles. Fasten them with washer and safety splint.

Figure 3: Mounting the wheels

3. Put the trolley on its wheels. Attach the handle to the drawbar. The handle can be mounted vertically or horizontally, as desired. Use the supplied M8x60 screw, washers and nut M8 (spanner size 13 mm)

**Figure 4: Mounting the handle**

4. Assemble the front, rear and side parts with the supplied cotter pins.

**Figure 5: Mounting the side rails**

5. Mount the "L-bolts" with washer and nut (M8, spanner size 13 mm) on the upper corners.

Figure 6: Mounting the "L-bolt"

6. In the last step the fabric inlay and the storage compartment are inserted.

Figure 7: Garden trolley with fabric inlay and compartment

### 3. Technical Data

max. charge (static)	550kg
Product dimensions	110cm (with drawbar) x 54cm x 70cm (100cm with handle to the top)
Loading volume (LxLxH)	92cm x 48cm x 40cm (ca. 175L)
max.tire pressure	2bar (30PSI)
Diameter wheel	26cm
Material Inlay	PVC

## 4. Disposal Instructions

### 4.1 Disposal of the packaging

- Please make reference to the guidelines and standards for appropriate disposal of the packaging valid in your region. In part, the package may consist of plastic bags - watch this respect, with special care to ensure that this is out of the reach of children. There is a risk of suffocation!

### 4.2 Disposal of waste equipment

- Equipment must be disposed of in accordance with the rules and regulations of the local waste disposal.
