Thank you for purchasing our product. Please read the user manual carefully before using the product for the first time. If you leave the product to third parties, this instruction manual must be handed over with you. Keep the instruction manual for later reference. The drawings in this guide may not match the physical objects. Please refer to the physical objects.

**! ATTENTION!** Do not change the direction of rotation while the machine is running to avoid damaging the gearbox. Do not make a sudden change in rotation.

## 1. Safety Instructions

### 1.1 Symbol Explanation

On the basis of a CE marking, it can be recognized that a product complies with the legal provisions of European legal standards and may therefore be traded within the European Community.

**Warning!** Read the safety regulations carefully. Failure to comply with safety precautions may result in serious injury or damage. Keep the instruction manual safe.

**Warning!** Risk of crushing hands!

### 1.2 Preparation

- After carefully removing the machine from the box, clean it thoroughly with mild soap and water **BEFORE** first use.
- Check the device for completeness and function before commissioning.
- Make sure that the fruit press is firmly placed on a stable and horizontal surface.
- The fruit must be ground before pressing, preferably with a fruit press.

## 2. Intended Use

- The fruit press is only suitable for pressing juice from ground fruit.
- The press is not suitable for industrial use.
- A fruit press is not comparable to a juicer. Both machines work completely differently. Grapes, for example, cannot be processed in a juicer because the seeds are destroyed, and bitter substances are released. Only with a fruit press the seeds remain intact and the juice can be processed into wine.
- Apples, pears, and other types of fruit must be processed into mash before the press.
- Whole, half, and quartered fruits cannot be pressed.

### 3. Technical Data

<b>Model</b>	AR-HE-OP6L	AR-HE-OP12L	AR-HE-OP18L	AR-HE-OP30L
<b>Capacity</b>	6 L	12 L	18 L	30 L
<b>Colour</b>	Tan, Red	Tan, Red	Tan, Red	Tan, Red
<b>Material Press</b>	Cast iron, wood	Cast iron, wood	Cast iron, wood	Cast iron, wood
<b>Material press cloth</b>	100% Polyester	100% Polyester	100% Polyester	100% Polyester
<b>Weight</b>	7 kg	10.2 kg	14.4 kg	18.8 kg
<b>Abmessung (LxBxH)</b>	28x28x58 cm	38x38x60 cm	38x38x71.5 cm	38x38x103.5cm

### 4. Assembly

- Now fill the mash into the wooden bucket and position the two wooden panels and the wooden blocks .
- Finally, position the printing plate .

- Place the plastic ring (J) on the printing plate and then mount part (B). Insert the red rod (C) into one of the openings of part (B) and press the fruit by turning it clockwise.

- !Attention! with this type of press it is not possible to press whole fruits. A mash (heavily crushed fruit) must be produced, otherwise not possible in a successful pressing process.

## 5. Cleaning and Maintenance

- After each use, rinse the fruit press thoroughly with water and wash the press cloth.
- Lubricate all moving parts at regular intervals with a suitable lubricant (food safe).
- Store the device in a dry and clean environment. Do not leave the press outside.

## 6. Environmentally friendly disposal

**Warning Danger of suffocation!** Packaging material is dangerous for children. Never let children play with packaging material.

### 7.1 Disposal and packaging

The packaging of your unit consists of materials that are necessary to guarantee effective protection during transport. These materials are fully recyclable and therefore reduce the environmental impact. Dispose of the packaging in a bin for recyclable materials.

### 7.2 Disposal of old equipment

Old appliances must be disposed of in accordance with the guidelines and regulations of the local waste disposal authority. Check with your local administration for the address of the nearest recycling centre and deliver your appliance there.

The symbol of the crossed-out dustbin on a Waste electrical or electronic equipment indicates that it must not be disposed of with household waste at the end of its life. Collection points for waste electrical and electronic equipment are available free of charge in your area. You can obtain the addresses from your city or local government. You can find out about other return options created by us on our website [www.arebos.de](http://www.arebos.de).

The separate collection of Waste electrical or electronic equipment is intended to enable the reuse, recycling or other forms of recovery of Waste electrical or electronic equipment and to avoid the negative consequences of disposal on the environment and human health.
