## 1.2 Safety Warnings

- Use this product only with shoes, clothing, safety helmet and - clothing.
- Keep in mind the brake becomes hot when used!
- Make sure all parts (screws) are tightened.
- This product is for motion. Do not attempt any tricks or stunts!

## 2. Assembly

Your scooter arrives almost fully assembled. For use, open the quick release.

Open the rapid tightening lever and press the folding button to unfold the Scooter.

Make sure to fully unfold until you hear the “snap in”. Close the quick release. Make sure it’s tight.

Unlock the rapid tightening lever and open the upper clamp to adjust the height until hear a “Click”.

By opening the quick release, you can adjust the steering to a comfortable height. Make sure the knob snaps into a hole in the steering column. After adjustment, close the quick release.

Insert the handle into the T-piece until you hear a "click". Pull the brake handle to check the braking effect.

Turn the screws on the bottom to tighten or loosen the brake.

Use the smallest tool to adjust these 2 screws to make the folding tight/loose.

### 3. Recommendations for using

- Before using, check your scooter is correctly assembled. There must be a “click” at each moment of engagement in the vertical locking position of the steering column. (see “2. Assembly”)
