Security instructions

Explanation of the symbols

By means of a CE marking, it can be recognized that a product complies with the legal provisions of European legal norms and therefore may be traded within the European Community.

Warning! Read the safety instructions carefully. The Failure to follow the safety precautions could result in serious injury or damage. Keep the operating instructions in a safe place.

Warning! Wear safety shoes!

Warning! Wear protective gloves!

Warning! Danger of crushing hands!

Be careful when using the ramp!

General safety instructions

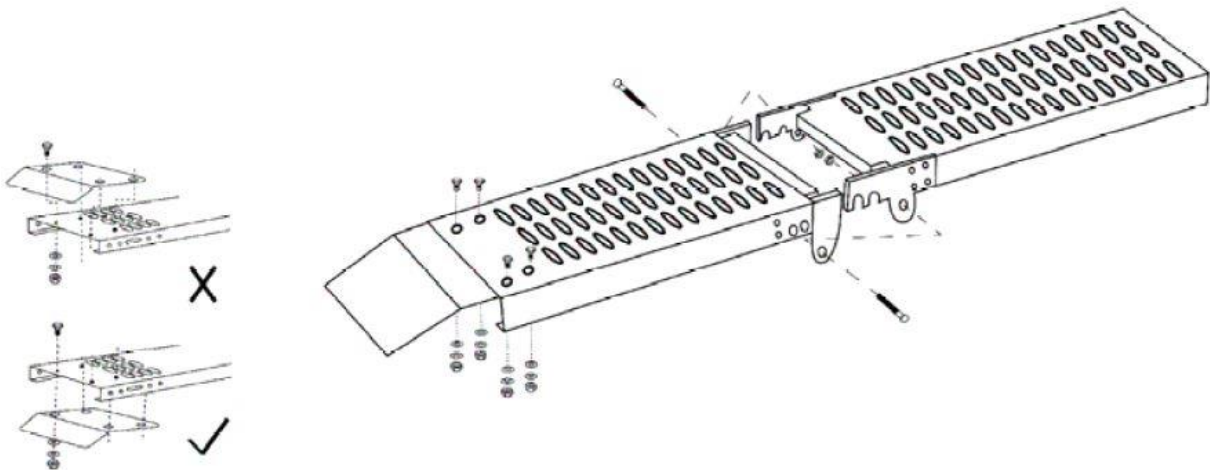

- The instructions are subject to changes.
- Check the ramp before using on damages, cracks, deflection or metal fatigue
- Should you find any damages, do not use the ramp! Contact the manufacturer or leave the ramp for repair with a specialist
- Always pay attention during usage!
- Wear protection cloths such as gloves, security shoes, and glasses
- Do not use force

- Keep children or other bystanders away from the working area
- Do not exceed the maximum loading capacity (chapter 3)
- The maximum loading capacity goes for all-over loadings in case of maximum work angle
- Do not jump on the ramp
- Do not drive on the ramp. Tare or push the loading on the ramp.
- Keep your body or body parts away from dangerous areas. Do not step under or behind the loading
- Do not work under influence of drugs, medicals or alcohol or if you are tired.
- Always care for a stable and secure ramp
- All maintenance work has to be done by a specialist
- Always use the ramp on a flat and hard surface
- Secure, that the flange end is on the ground. The other end has to touch the loading
- Take care of a clean ramp, no oil or dirt
- Do not load a vehicle with running engine. Let vehicles cool down before loading
- Keep packing material on places unreachable for children! Danger of suffocation!

Intended use

- The ramp is suitable for quads, motorcycles, mowers, ...
- The ramp is not suitable for cars
- Maximum Capacity 992 lbs (450 kg) per pair

Assembly
