Thank you for choosing our product. Please read the user manual carefully before using the product for the first time. If you give the product to a third party, this instruction must be passed with them. Keep the instruction manual for future reference. The drawings in this manual may not match the physical objects. Please refer to the physical objects.

1. Safety

1.1 Explanation of the symbols

Warning! Read the safety instructions carefully. Failure to follow safety precautions may result in serious injury or damage. Keep the instruction manual in a safe place.

This product must **not** be disposed of with household waste!

1.2 General information

- Before installation, remove approx. 5 cm of protective film from all panel edges.
- Remove the protective film immediately after assembly is complete. Cover the installed panels until the entire structure is finished to avoid any damage.
- Do not remove the protective film until the plates have been properly installed.
- Do not remove the protective film when cutting.
- After cutting, blow away the chips and dust and seal the edge again with an anti-dust tape.
- The diameter of the holes must be 50% larger than the screw diameter. This leaves enough space for thermal expansion.
- Provide enough space between the panels to allow for thermal expansion due to seasonal temperature fluctuations.
- Panels must always be mounted with ribs in a vertical position. Seal the bottom edges with perforated aluminum tape and/or a perforated U-profile.
- Gaskets must be compatible with polycarbonate.
- Wash with mild soap or mild detergent and a soft cloth or sponge.
- Rinse the plates with lukewarm water (below 60°C).
- Wash gently to loosen any remaining dirt and dust. Do not use brushes and/or rough fibers.
- Never scrape the polycarbonate sheets with squeegees, razor blades or other sharp instruments.
- Dry with a soft cloth or chamois leather to prevent water stains.
- To remove grease, wet paint, or stickers, gently rub with a soft cloth thoroughly covered with anhydrous ethyl alcohol or kerosene.
- Keep away alkalis, alkali salts, amines, ketones, aldehydes, esters, ethers, chlorinated hydrocarbons, aromatic hydrocarbons, methanol, and isopropanol.
- The UV-protected side of the plate is labeled and must be oriented towards the sun.
- Do not expose the panels to direct sunlight or rain during storage.

2. Specifications

EAN	4252023126311	4252023126328
Color	Transparent	Transparent
Dimension	121*60.5 cm	121*60.5 cm
